2. 108 I think Rs 5,000/- already fixed is a high enough limit. Officers of the Executive Engineers' rank in the Public Works Department are empowered to sanction original works of the value of Rs 1,000/- only and repair works up to Rs 2,500/-. The Superintending Engineers and the District Board Presidents are empowered to sanction estimates up to Rs 5,000/- and this limit is high enough for the Municipality.

Sgd 30/4/34 AM

113 The only point in the rules which the Municipal Council takes exception and about which the proposed deputation wants to make representation to Govt relates to the limit upto which the Council should be empowered to sanction and execute public works. This limit, which is now Rs 5000, is proposed to be continued under the new rules, but the B'lore City Municipal Council wants this to be raised to Rs 10,000 for reasons mentioned in the Sub Committee's report. They also want the rule requiring consultation with the Central Health Committee when the works exceed Rs 30,000 in value, to be deleted.

114 The reasons given for raising the limit viz that the Status of the Municipal Council justifies the granting higher powers & that this will avoid delays in the execution of works, do not seem to have much force. It will be seen that the Deputy Commissioner of Bangalore City has no objection to the proposed rules, and that for orders if there is any necessity to allow a deputation of the Bangalore City Municipal Council to make a further representation in the matter. The Chief Engineer thinks that the limit of Rs 5000 need not be raised for reasons stated

There is also no force in the contention that the rule requiring consultation with the Central Health Committee in cases of estimates exceeding Rs 30,000 is unnecessary, as this is purely a matter which concerns the Govt & the Municipal Council and Govt can consult any body they like.

Rule 3.- The limit of Rs5,000 laid down in the rule for Sanitary works is low, the same having been fixed in the case of Town Municipalities also The City and Town Municipalities cannot be treated in the same manner.

The mention of the "Central Health Committee" in the rule is unnecessary, as without specifying any such body or individual, Government may consult any one they like before according sanction

The definition of the expression "Sanitary Works" is too wide, as many of the items included in it cannot properly be treated as Sanitary works and their inclusion

leads to delay in the execution of the works.

Rule 4.- For the same reason as stated above, the mention of the Chief Engineer in the rule for the purpose of the scrutiny of the estimate is not necessary. The matter is one which affects the prestige and dignity of the Council

Rule 5.- The limit of Rs5,000 fixed for obtaining sanction of Government should be raised to Rs10,000 in view of the status of the Municipal Council. The estimates and plans are got prepared by the Municipal Engineer after consultation with the City Improvement Committee which is composed of technical men also, and there is no risk involved in raising the limit This will also obviate delay in starting works

For the above reasons it was suggested that Rules 3 and 4 may be omitted altogether and that Rule 5 may be recast as follows.-

> "Every work shall be commenced only after such technical scrutiny by Government as they consider necessary and approval of the plans and estimates by them, when the estimated cost of the work exceeds Rs10,000"

It was also suggested that the words "after the estimate has been approved" in Rule 2 may be replaced by "after the plan and estimate have been approved" so as to enable the Municipal Council to approve of the plan also.

of procedure, the Central Health Centre or the Chief Engineer as they like under the existing orders. If before according sanction to the works was for this reason that rules 3 & 4 were omitted & rule 5 recast as in Draft I

I

1 & 2 The Municipal Comr's memo & points & discussion read with his letter dt 3 of 8/35 does not, however, refer to the above points, but say that all the rules should be retained, with the limit of Rs 5000 raised to Rs 10,000 in rules 3, 4 & 5 and the word 'Govt' substituted for 'Central Health Centre' in Rule 3 Draft II is based on these suggestions, Rs 5000 being retained in the rules 3, 4 & 5 as per orders in paras 170 & 171

R.Ranga Rao,Esq.,B.A.,B.L.,
Chief Secretary to the Government of Mysore,
BANGALORE.

Sir,

With reference to your Memo.No.L.5100/101 dated 8/10th January 1934, forwarding copy of the draft of the rules regulating the preparation and sanction of plans and estimates for works to be executed in City Municipalities, which the Government propose to make in exercise of the powers conferred on them by Sec.228 (2) (1) of the Mysore City Municipalities Regulation, I have the honour to forward herewith the objections and suggestions of the City Municipal Council with respect to these proposals.

2. The Municipal Council referred the matter to a special ~~Sub~~-Committee constituted for the purpose, on 14-3-1934 and the report of the Committee (copy of which is enclosed) was placed before the Council for their consideration.

3. The Council consider that in the proposed rules, rules 1 and 2 may stand, but that rule 3 is unnecessary, as in the first place, it will make it obligatory for the Municipal Council and the Government to consult a body like the Central Health Committee and the Council consider it undesirable that there should be any such fettering of the discretion of the Government before according its sanction; and in the second place, the scrutiny by such a body is not contemplated by Sec.228 (2) (1) of the Regulation. They consider that rule No.4 gives sufficient discretion to the Government to consult any individual or body without being under the obligation to consult a particular ~~body~~ Committee. Rule

No.4.

Rule No.4, the Council suggest, may be altered as under:

> "Every work shall be commenced only after a technical scrutiny and approval of the plans and estimates by the Government, when the estimated cost exceeds Rs.10,000/-".

The reasons for raising the limit from Rs.5,000 to Rs.10,000 are set forth in the Committee's report. They relate mainly to the status of the City Municipal Council and the necessity to avoid delay in the execution of works. Here again, the Council would rather leave it to the discretion of the Government as to which officer they consult before according such approval, without the Government being under the obligation to consult the Chief Engineer alone.

4. Rule No.5. The Council consider is out of place here as the rules are to be framed only with regard to the preparation and approval of plans and estimates without reference to administrative or financial control or sanction. Rule No.5. in their opinion seems to go beyond the rule making power under this clause They, therefore, suggest that it may be omitted. Rule - No.6. may stand. A copy of the resolution of the Municipal Council in this matter is forwarded herewith.

5. The Council also pray that before promulgating the rules, Government may be pleased to give an opportunity for a - deputation of the Municipal Council to wait upon Government and explain in detail the reasons which have induced the Council to make these objections and suggestions.

I have the honour to be,
Sir,
Your most obedient servant,

Municipal Commissioner.

Forwarded with compliments,

President.

The draft report of the Sub Committee on the rules framed by Government under Section 228 (2) (1) regarding the preparation of plans and estimates was taken up for consideration.

The report was discussed at great length.

Mr. C.N.Narasinga Rao proposed that before the word " unnecessary" appearing after " works costing more than Rs 30,000 is " in the Sub Committee's report, the words " is not contemplated by Section 228 (1) of the Municipal Regulation of 1933 " be added.

Mr. S.K.Venkataranga Iyengar seconded it.

Mr. S.K.Venkataranga Iyengar further proposed that Rules 3 and 5 be deleted and that in the draft rules framed by Government the word " Chief Engineer " appearing in Rule 4 be sustituted by the word " Government."

41

This was seconded by Mr. C. N. Narasinga Rao.

The Rule 4 may be revised as under :-

" Every ~~other~~ work shall be commenced only after a technical scrutiny and approval of the plans and estimates by the Government, when the estimated cost exceeds Rs. 10,000/-."

The report of the Committee ~~is~~ as per alterations noted above was put to vote and carried unanimously.

Then the other report relating to regulating the expenditure out of Municipal Funds under Section 206 (2) of the City Municipalities Regulation of 1933 was taken up for consideration.

Resolution :- The report of the Sub Committee was approved in toto.

Copy of the report of the Sub Committee constituted by the Municipal Council to consider the draft rules regarding the " Preparation of Plans and Estimates

---

In the opinion of theCommittee the proposed rules fall within the limit of Section 228 of the Regulation which reserves to Government the right to make such rules. But they recommend that the rules may be so framed as to give as wide a latitude as possible to the Municipal Council in carrying out works for the benefit of the rate-payers with the least possible delay. In this view, governmental control or check may be limited to correcting abuses of the discretion of the Municipality rather than to exercise scrutiny at every stage and delay action taken. The Committee feels that considering the status of the Bangalore City Municipal Council, the limit of Rs. 5,000/- may generally be raised to Rs. 10,000/- that is to say, the Municipal Council should be given absolute discretion to sanction and carry out works costing up to Rs. 10,000/- only works costing more than that amount being subject to the previous sanction of Government. As the Municipal Council generally has its Engineer, an Officer of some standing and experience under the control of a Municipal Commissioner of the rank and status of a Deputy Commissioner, it may safely be assumed that the Council can be trusted to exercise their powers properly on the advice and recommendations of such officers On the same considerations, the Committee also feel that the obligation to consult the Central Health Committee in cases of works costing more than Rs. 30,000/- is unnecessary, as in any case all works costing more than Rs. 10,000 have got to be sanctioned by Government and the Government may take any advice that is deemed necessary before according their sanction. The raising of the limit from Rs. 5,000 to Rs. 10,000 is sure to result in the avoidance of delays in the execution of works.

In this connection an extract from the speech of the Government Member in Charge of the Mysore State Municipalities Bill, when considering the report of the Select Committee on the New Regulation, will

42

not be out of place.

" Mr. Subbarama Chetty has also some remarks to offer about the provisions regarding control included in Chapter XII. His view seems to be that not even ultimate control should be provided for in the Bill. I have already explained when I introduced this Bill that these provisions are ~~xxxxxx~~ intended for use only in cases of emergency and not in everyday administration of the Municipality as stated by Mr. Subbarama Chetty. I think it will be generally agreed that there should be some ultimate control and some emergency provision as the final responsibility for the good administration of these local areas must vest with the Government. In this view, these provisions regarding the control must be taken byt as safeguards for use whenever occasions may unfortunately arise for their use." (Proceedings of the Mysore Legislative Council, December Session, 1932, Page 202.)

The Committee therefore recommend that Government be moved to raise the limit from Rs. 5,000 to Rs. 10,000 as the premier Municipality like Bangalore, may be trusted to administer its affairs in a reasonable spirit and in consonance with public interests.

Points urged by the deputation

Preparation of plans and estimates- All plans and estimates for works to be executed partly or wholly out of the Municipal Fund and undertaken by or on behalf of a Municipal Council, shall be prepared.

(a) by the Public Works or other Departments of the Government at the request of the Municipal Council, if the work is to be executed by that Department, and
(b) the Engineering Officer employed by the Municipal Council concerned in other cases.

To be retained.

2. Every such work shall, subject to the provisions of Rules 3,4 and 5 infra, be executed only after the estimate has been approved by the Municipal Council or by a Committee or person to whom the power to approve plans and estimates is delegated in accordance with the rules or orders for the time being in force.

To be retained

3. Sanitary works of an original nature costing more than Rs 5000 shall subject to the provisions of Rule 5, be undertaken by the Municipal Council only after the plans and estimates have been approved by the Central Health Committee when the estimated cost exceeds Rs 30,000.

It was agreed to give up " Central Health Committee" and instead the word"Government" was urged to be introduced. The limit of Rs 5,000/- be raised to Rs 10,000/-.

Explanation :- The term " Sanitary works" includes-

(i) markets, slaughterhouses, huts for sweepers or scavengers, latrines, incinerators, urinals and cess-pools.

(ii) works connected with water-supply and important improvements to existing sources of water supply.

(iii) works relating to drainage including sewage disposal plant,

(iv) laying out sites for building purposes,

(v) acquisition of lands for improvement of sanitation and

(vi) construction of Health Camps and Epidemic Diseases Hospitals.

Note:- The above explanation is not exhaustive, but merely indicates, as examples, certain works which fall under the catagory of Sanitary Works.

(90)

4. Every other work shall, subject to the provisions of Rule 5, be commenced only after technical scrutiny of the estimate and approval of the plan by the Chief Engineer when the estimated cost exceeds Rs 5,000/-.

The limit to be raised to Rs 10,000/-.

5. No original work shall be commenced by the Municipal Council or in its behalf by the Public Works or other Departments without the previous sanction of the Government, when the cost exceeds Rs 5000/-.

The limit to be raised to Rs 10,000/-.

6. Nothing contained in the foregoing rules shall be deemed to apply to works connected with the Local Fund Dispensaries and Hospitals and Veterinary Hospitals and Dispensaries and other works executed by the Government for which a prescribed portion of the cost is payable from the Municipal Fund in accordance with the orders of Government for the time being in force.

To be retained.

M Venkatarao
Municipal Commissioner.
